

Braun BNT300WE digital body thermometer Remote sensing thermometer White Forehead Buttons

Model: BNT300WE

Manufacturer: BRAUN

EAN: 4022167130020

Product Code: 484091

R1,671

Forehead thermometer with both no touch and touch functions. Designed with convenience in mind, it allows you to take a measurement in only a couple of seconds by aiming in the middle of the forehead, in between the eyebrows.

No touch mode

The non-invasive no touch feature takes readings from up to 2.5 centimeters away. Perfect to take the temperature of a child without disturbing her

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Touch mode

The touch feature allows you to easily and quickly measure temperature with no need to swipe - ideal for self-measurement

Colour-coded temperature guidance

The back-lit, colour-coded display will let you know in a glance if the fever temperature is getting better or worse. The large screen changes from green (normal) to yellow (Fever) to red (High Fever) depending on the temperature reading

Silent mode

Allows you to take the temperature without a sound - great when using the thermometer in no touch mode to avoid waking up a sleeping child

Positioning guidance system

Always get consistent and clinically accurate readings with thermometer's positioning guidance system.

These thermometers are not intended for clinical use in a professional environment and are for home usage only. This thermometer is not intended to interpret hypothermic temperatures.
