

Epson C13S015657 printer ribbon

Model: C13S015657

Manufacturer: EPSON

EAN: 8715946706306

Product Code: 485515

R1,593

Exact fitting ink ribbon

Epson film ribbons are single-pass plastic ribbons coated on one side with ink. Available for LQ-780 and LQ-780N, this high quality ribbon produces clear, crisp lettering of precisely the right density to ensure letter quality output.

In a demanding and fast moving work environment, a high ribbon yield is essential and with 10 million characters per ribbon, this marks the LQ-780 and LQ-780N as leading forces in the market. It is also cost-effective, with long ribbon replacement cycles, low running costs and low total costs of ownership.
