

i-tec Metal USB-C/USB-A 2.5Gbps Ethernet Adapter

Model: C31METAL25LAN

Manufacturer: I-TEC

EAN: 8595611703898

Product Code: 486564

R1,686

Modern, ultra-fast network adapter, which will provide your laptop, tablet or computer with a USB-C/USB-A or Thunderbolt™ 3/4 port with an easy, quick and reliable connection to a company network and the Internet. The adapter can run at 10/100/1000/2500 Mbps so that you can comfortably enjoy a high-speed Internet connection without any interruptions.

The adapter requires no external power supply and supports a wide range of operating systems from Windows and macOS to Linux. Also enables Ethernet connection on Android.

The adapter is designed for running at maximum speed long term and its high-quality heat protection lends it a projected service life of 60+ months. In addition, its metal casing protects the adapter from damage and scratching.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
