R993

The Club 3D CAC-1528 USB-C® Angled Adapter set of 2 up to 4K120Hz 240Watt EPR M/F is a versatile set of angled connector adapters providing cable management solutions. With either- or both- connector adapters you can avoid blocking other ports on your host device. Also for displays with a USB-C® input this can be an easy fix for not blocking other ports and/or bending cables. This set contains 1 of each adapters and are universal in their usage, Data, Video and Power Delivery up to 240W(48V/5A). The adapters are verified with Club 3D products to support up to 4K120Hz. Supports USB-C® up to 10Gbps of data speed.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
