

Lanberg CA-USBA-11CC-0018-BK USB cable USB 2.0 1.8 m USB B 0.48 Gbit/s Black

Model: CA-USBA-11CC-0018-BK

Manufacturer: LANBERG

EAN: 5901969413496

Product Code: 487610

R717

Lanberg’s high quality USB 2.0 cable, ideal for connection between computers and printers, scanners and other multimedia / peripheral devices. Due to the use of a ferrite core, the signal transmitted by the cable is preserved in a larger percentage, according to the original signal value, at the input.

Having high standards and restrictions in the production stage and multi-step quality controls, allows the final product to meet the high standards and norms, associated with this type of cable. As a result of those, complex product evaluations, the expectations of even most demanding users can be fulfilled.

All in all, every single Lanberg USB cable, provides its users with a stable, fast and uninterrupted signal, which translates into appropriately high transfer.
