Model: CL3800NW

Manufacturer: ATEN

EAN: 4719264646430

Product Code: 489033

R53,058

Why ATEN Ultra Short Depth Solutions?

The new series provides a space-optimizing solution with an industry-leading ultra short depth design in a 1U 18.5" LCD console for both dual rail and single rail models. It is specifically designed for control environments where space is limited, including outside broadcast vans (OB vans), portable rack mount cases or any computer room where space is at a premium.

Ultra Short Depth

Both 18.5" single/dual rail ultra short depth designs are especially suitable for OB vans, portable rack mount cases or any computer room where space is at a premium.

Dual Rail Design

CL3800 dual rail design allows LCD monitor and keyboard modules to operate independently, optimizing space utilization while providing 24/7 monitoring.
