The Ultimate Cable Management Solution

The patchbox.one with Cat.6a cables keeps your rack organized, efficient, and ready for the future. Its retractable twisted pair cables are lightweight, flexible, and easy to handle—making installation and maintenance smoother than ever.

Build Your Ideal Rack Setup

Customize your own patchbox.one by filling the patchbox.one / Frame with up to 24 Cable Cassettes—tailored to your exact cable length, type, and connector needs.

Modular, Replaceable, Scalable

Need to adapt your rack? Swap any cassette in seconds—no tools required, no downtime needed.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

High-Performance Ethernet

Our Twisted Pair Cat.6a cables deliver up to 10 Gigabit Ethernet, meet ISO/IEC standards, and support PoE (STP) and PoE++ (UTP).

Color-Coded for Clarity

With 8 cable colors to choose from, you can implement a structured, highly organized cabling standard.

Three Length Options

Select from 0.8m, 1.8m, or 2.5m cable variants—perfectly aligned to your rack height and infrastructure needs.
