

ATEN CS1924ATC KVM switch Black

Model: CS1924ATC

Manufacturer: ATEN

EAN: 4710469343100

Product Code: 490409

R29,359

The ATEN CS1924ATC 4 Port USB 3.0 4K DisplayPort KVMP™ Switch for ATC is tailor-made for Air Traffic Control scenarios. It supports 2Kx2K resolution, making it perfect for radar monitoring, and also enables constant monitoring of flight information and mission-critical processes.

The Zero-Second Switch function ensures nearly real-time switching without any black screens, providing air traffic controllers instant access to four USB / DisplayPort-interfaced ATC computers for crucial operations. Port switching is flexible via pushbuttons, hotkeys, mouse, RS-232 commands, or an optional accessory the remote port selector.

With two lockable DC jacks for power redundancy, the CS1924ATC ensures uninterrupted operation and constant availability for mission-critical applications. It aims to greatly minimize or eliminate the risk of downtime.

Patented ATEN technology – Video DynaSync™, and EDID expert™, combined with DisplayPort 1.2 and video resolutions up to 4K @ 60 Hz, it delivers optimized display resolution with exceptional
