Model: CSV-1382

Manufacturer: CLUB 3D

EAN: 8719214472245

Product Code: 490567

R3,841

The CSV-1382 is a high performance HDMI™ KVM (Keyboard Video and Mouse) switcher. It routes high definition videos up to 4096x2160 at 60Hz resolution and audio from any HDMI™ source to any HDMI™ supported display. This HDMI™ KVM switcher not only has the key press switching function, but also has an intelligent function as well as hot pluggable function.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
