

Chieftec Photon power supply unit 750 W 24-pin ATX PS/2 Black

Model: CTG-750C-RGB

Manufacturer: CHIEFTEC

EAN: 753263075925

Product Code: 490788

R3,470

The highly innovative Photon series are aimed at gamers and enthusiasts, looking for the ultimate in power, longevity, performance and of course, RGB lightning effects and all this at a highly affordable price. The +5V addressable LED connector of the PSU offers an extreme wide range of lightening modes and effects, supports all renowned RGB lightening synchronization systems such as ASUS AURA SYNC, MSI MYSTIC LIGHT SYNC, ASROCK POLYCHROME SYNC and GIGABYTE RGB FUSION.

Photon series in addition provide a vast number of predefined and MB-independent lightening modes and effects, which are set via a button on the rear of the power supply while a minute toggle switch, equally located on the rear of the PSU allows the choice between the M/B RGB control (if available) or the integrated modes and effects. With its modular cables and related vast amount of connectors, an efficiency of 85% @230V, coupled with its highly competitive price positioning, the models of the Photon series stand out as perfect RGB Gaming solutions.
