Extra strong coffee with less bitterness.

The more water passes through ground coffee, the more bitter the result. AromaDouble Shot grinds and brews extra strong coffee in two steps — and as only half the water is used at each step, the coffee produced is less bitter. So you can enjoy maximum flavour — even when drinking coffee at maximum strength.

Two cups simultaneously if you want.

No more waiting in the morning to make two drinks back to back. The Bosch fully automatic espresso machine can brew two drinks at once, with a click. Just choose your favourite drink – espresso, cappuccino or latte macchiato.
