BE9300 5G WiFi 7 Mesh Router

Supercharged with WiFi 7

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

WiFi 7 includes the new 6 GHz band, which is exclusive to 6 GHz devices, eliminating interference from legacy devices. The additional 320 MHz channel enable more simultaneous transmissions at the highest possible speeds. 4K-QAM brings 20% higher theoretical transmission rates than 1024-QAM. Also, Multi-RU and MLO make full use of every resource and deliver a more reliable network.

Blazing-Fast WiFi 7 Speeds Up to 9214 Mbps

Wi-Fi 7 unleashes the full potential of 4K-QAM and the 6 GHz band with up to 320 MHz channels, delivering unprecedented Wi-Fi speeds up to 9214 Mbps. The new 6 GHz band provides exceptional bandwidth congestion-free channels. Now you can enjoy full access to 8K streaming and multi-gig downloading.

Lower Latency,
Enhanced Capacity
With massive MIMO, optimized OFDM, and more, 5G technologies brings fast responsive network connections to tomorrow’s mobile devices, with only 1 ms latency. Enjoy your online streaming, gaming, and AR / VR without congestion.

Plug and Play, Enjoy 5G Network Everywhere
Simple, just one SIM card
Traditional broadband or cable installation is expensive and time-consuming for your vacation home, farm, or suburban warehouse. Long contract periods also create headaches for short-rentals, pop-up venues, and temporary shops to access the internet. Deco BE65-5G ensures a comfortable and no-block network installation. Plug in your SIM card and enjoy high-speed internet!

Ultra-Fast 2.5 Gbps Wired Performance

3× 2.5 Gbps ports maximize home internet speeds with up to 2.5× the wired speed of a typical Gigabit Ethernet port. Connect your favorite wired devices to Deco BE65-5G and begin the smooth game!

The Ultimate Backhaul: Stronger and More Flexible

Through our self-developed technology, Deco BE65-5G can connect a wireless and wired backhaul with each unit simultaneously. What’s more, with the latest WiFi 7 MLO technology, the system’s

wireless and wired combined backhaul aggregation flow rate is increased. This way, it greatly improves overall throughput and reduces latency, delivering broader coverage with more stable and reliable connections.

Smart Security for Smart Living

HomeShield provides a series of built-in services that protect all your devices comprehensively with various features for when you’re at home or on the go. With HomeShield, safer internet experiences bring more happiness to your smart living.

VPN Clients and Server Supported

Allow devices in your home network to access remote VPN servers without needing to install VPN software on every device. You can create different VPN connection types, including OpenVPN, PPTP, L2TP/IPSec VPN. Besides, Deco can run both the VPN and ordinary internet connections at the same time, delivering security and flexibility.

Private IoT Network for More Security

Set up a separate WiFi for IoT devices and overlay HomeShield and advanced WPA3 encryption** to better protect the security of your home network and IoT devices.

Seamless AI-Driven Mesh

Uninterrupted Streaming when Moving Between Rooms

Deco Mesh forms a unified network with a single network name. With built-in AI-Roaming technology, it creates the ideal WiFi solution with its advanced algorithms and self-learning. Walk through your home and enjoy seamless streaming at the fastest possible speeds.

Simple. Easy. Yet Powerful.
Setup and manage your network anytime and anywhere on the friendly TP-Link Deco app. In just three easy steps your entire home can be blanketed in strong and reliable WiFi.

Easy Management
