Dell Smart-UPS Line Interactive

Deliver reliable, network-grade power to your servers, storage and network devices. Rack-mount and tower models offer high efficiency at low, medium and high loads.

Key features:
- High-efficiency mode: Helps to lower utility and cooling costs
- Emergency power off (EPO): Performs remote UPS shut down during an emergency. (1500VA model option)
- LCD: Displays detailed and accurate information in real time
- Network-grade power: Ensures stable power conditions by filtering noise, regulating voltage automatically and incorporating surge protection
- Communication ports: Includes serial and USB ports, and a SmartSlot for network cards
- Enhanced battery management: Helps extend battery life with temperature-compensated algorithms

Product features

LCD: Accurately provides real-time status updates with your choice of basic or advanced menus

Power status:
- Operating mode and efficiency
- Load VA/Watts/Amps
- Input/output voltage and frequency
- Battery capacity and runtime

Control: UPS and outlet group settings

Configuration:
- Language
- Power and quality settings
- Alarm settings

Test & diagnostics: Initiate battery and runtime tests

Logs: Explanation of last 10 transfers and faults
