Vivid Colors with High Contrast

Optical Clear Adhesive (OCA) is added between the touch screen and the LCD to eliminate the air layer and suppress light reflection and glare. This feature enhances the contrast and brightness and maintains the visibility of the display in various environments.

Floating Panel Mechanism with 3-way Position Adjustment

The robust floating mechanism generates less vibration even on a rough road. It can be installed regardless of the size of the cluster panel opening. In addition, it is possible to adjust the position of the display in the following 3 ways, so you can fit a large screen in more vehicles.

All in One The Ultimate Wired & Wireless Smartphone Integration

Apple CarPlay gives iPhone users an intuitive way to make calls, use Maps, listen to music and access messages with just a word or a touch. With iOS 12.0 and higher, 3rd party navigation apps like Google Maps™ are also supported. Wireless connection is available on compatible iPhones.
Android Auto is a simple way to use your Android phone in the car. The KENWOOD receivers combine an intuitive voice controlled interface with a large touch screen and superior sound quality, allowing you to enjoy features including Google Maps and more. Wireless connection is available on compatible Android Phones.
Please note that the online navigation apps are not available when using Android Auto on this unit!.
Wireless Mirroring is a groundbreaking solution for seamlessly displaying and controlling your smartphone apps on the receivers' large screen without cables or even a network connection. The feature is available on compatible Android phones. Some features, applications and services are not available in every region.

high to low frequencies. Both CD and Hi-Res Audio are digitized versions of the actual sound; Hi-Res Audio is able to digitize and store the sound in more detail than CD, so the waveform of the sound is closer to the original sound. Hi-Res Audio has 6.5 times more information than standard CD quality.

4 Camera Inputs.

DNR992RVS features 4 camera inputs which allow for the utmost in convenience, flexibility and safety. You can connect a KENWOOD CMOS-320 camera (sold separately) in the front and a rear and blind view (left / right) CMOS-230 (sold separately) cameras. Setting of camera type and display switching between 4 cameras can be operated easily via the receiver’s large screen.
(AV input is assignable as 4th camera input).

HD Rear / Front Camera Input

The optional CMOS-740HD camera can be connected to the rear or front camera inputs of the DNR992RVS, displaying the image in true HD 1280 x 720 pixels on the large screen.
This optional Front/Rear Camera Realizing High-Definition Imaging. The 180° horizontal wide-angle image is displayed on the DNR992RVS in HD image quality. With this camera, you can park safely with an easy view of the rear. Thanks to HD-TVI technology, HD videos can be transmitted and displayed on the HD display of the DNR992RVS using an analog RCA cable.
