Introducing the 15-in-1 USB 3.2 Gen 2 DisplayLink Docking Station – a versatile and powerful hub designed to enhance your productivity and streamline your workflow.

With support for HDMI and DisplayPort resolutions up to 4K at 60Hz, you can enjoy stunning visuals and immersive multimedia experiences. Leveraging DisplayLink technology, the docking station supports multiple extended displays, allowing your MacBook to overcome the limitations of the M1/M2 chip and enabling the use of up to three monitors with different content. Please note that DisplayLink driver installation is required.

Offering a diverse selection of ports, including 2 x USB-C 10Gbps, 2 x USB-A 10Gbps, and 2 x USB-A 5Gbps, effortlessly connect all your peripherals. The SD and MicroSD/TF 3.0 slots enable simultaneous reading and writing, ensuring convenient data transfer.

For added security, the docking station includes a standard security slot, providing peace of mind for your devices.

The docking station seamlessly integrates into your workflow, whether at home, in the office, or on the go.
