DR-24G

The AG Neovo DR-24G is a 24-inch dental monitor that features a quick switch to X-ray illuminator mode for dental X-ray film viewing without using another X-ray view box. With advanced gamma correction, black-level alignment adjustability, and high contrast ratio, the dentists can verify the patient's condition of teeth, jaw placement, and facial bone before dental treatment. The NeoV™ Optical Hard Glass Screen and white metal casing design meet an array of medical level cleaning requirements, allowing dental professionals to clean and sanitise the monitors.

EASY CLEAN AND ROBUST PROTECTION

The special design of NeoV™ Optical Hard Glass and white metal casing prevent dust and waterproof for easy clean and robust protection.

QUICK SWITCH TO X-RAY VIEWING MODE

The DR-24G 24-inch dental monitor integrates hotkey operation to switch X-ray viewing mode without using another X-ray view box.

DC 24V MEDICAL-GRADE POWER ADAPTER FOR A LONGER DISTANCE CONNECTION

Designed with DC 24V power supply, it is ideal for long-distance (up to 5 meters) cable management between dental equipment and displays. The medical power supply with IEC / EN60601-1 certified ensures safety, performance, and reliable operation in any professional medical environment.

PIP/PBP SUPPORT

PiP/PbP functions enable viewing and comparing two images simultaneously from different sources and enhance work efficiency for multitasking.

GREAT MOBILITY

This 24-inch dental monitor meets VESA 75mm/100mm wall mount standard and optional handle for flexible installation and operation on the dental chair.
