device that can meet scanning needs from the assembly line to quality control.

SUPERIOR PERFORMANCE

When it comes to capturing barcodes in the manufacturing plant, the DS3608-DP and DS3678-DP deliver the ultimate in scanning performance — period. Capture direct part marks regardless of size, surface, contrast, density or type — including challenging dot peen, chemical or laser etch, ink, inkjet mold, cast or thermal spray marks. And workers can capture any 1D or 2D barcode displayed on a screen or printed on a label in practically any condition for superior barcode capture flexibility in a single scanner.

ULTRA-RUGGED DESIGN

The warehouse and manufacturing plant floor is as tough as its gets. That’s why we created a new product category — the ultra-rugged scanner. The corded and cordless models are the only scanners in this class that are dust-tight, sprayproof and waterproofed to IP67, with an IP65-sealed cradle for a complete rugged cordless solution.

UNRIVALED MANAGEABILITY

With our complimentary industry-best tools, managing these scanners couldn’t be easier. You can remotely configure and upgrade your scanners, format data properly for instant transmission into your business applications, monitor battery statistics for your cordless models and more.
