Philips DVT4115 Digital Voice Tracer Flash card Chrome, Silver

Philips DVT4115 Digital Voice Tracer Flash card Chrome, Silver

Model: DVT4115

Manufacturer: PHILIPS

EAN: 855971006892

Product Code: 494658

R2,794

Exceptional recording, shared instantly

with automatic speech-to-text

Capture lectures and distant speakers in outstanding sound quality thanks to the three specialized high-fidelity microphones. Record and control your recorder remotely using your smartphone app for even greater flexibility. Easily share your files with the world via the app. Combined with Sembly’s AI Speech-to-Text Cloud Software, you can even turn your recordings into text quickly and accurately. Simply upload your files to Sembly when you are back at your computer and let it automatically convert your recordings to text for you.

Three high-fidelity microphones for best-in-class audio recording

Several key components are needed to record sound as naturally as possible in studio-like audio quality: high signal-to-noise ratio, highly dynamic microphones to capture soft tones as well as loud drums, a high-quality microphone suspension to avoid pickup of grip noise, a strong left and right channel separation for human ear live-like effect.

Stereo MP3 and PCM recording for clear playback and easy file sharing

Capture your recordings in stereo MP3 or PCM format. The popular MP3 file format allows you to play back your files virtually anywhere and simply share them with others. The PCM (WAV) format allows stereo recording of lossless, uncompressed sound in CD-like audio quality.

8 GB internal memory for up to 88 days of recording

Capture and store up to 88 days of continuous recording thanks to the 8 GB of internal memory. A microSD memory card slot for up to 32 GB of additional memory guarantees virtually unlimited recording capacity.

Rechargeable Li-ion polymer battery for extra-long recording

The high-capacity Li-ion polymer battery can be easily charged through a standard USB C jack. This guarantees extended battery life for extra-long recording up to 36 hours, ensuring that your recorder will always be ready to work when you are.

Free smartphone app for remote audio control

Control your audio recorder using your smartphone, even from a distance. The Philips VoiceTracer app makes recording events such as lectures much easier and more convenient. You can place your

recorder in the front of the room near the speaker, take a seat at the back, and still control recording comfortably and without interrupting the lecture. The Philips VoiceTracer app can be downloaded for free from the Apple App Store or Google Play Store.

Large color display for clear recording status information

The large color display offers sharp images, making it easier to see and read everything at first glance. The clear user interface supports seven languages and is optimized for easy, intuitive operation.

Audio scences for automatic perfect audio settings in any situation

The Philips VoiceTracer comes with preset scenes which automatically adjust the recorder’s audio settings depending on what you want to record, whether it is notes, audio for speech recognition, interviews, lectures, music or meetings.

Smart recording and playback functions for best recording results

Smart recording functions make it even easier to achieve stunning audio results. The pre-recording and timer functions make sure you don’t miss a single bit. Voice-activated recording is a convenient feature for hands-free recording which pauses recording when you stop speaking and resumes automatically when you begin speaking again. Recordings can be edited by overwriting a part or adding a new recording at the end. Long recordings can be split automatically or manually into separate files for easier editing or sharing. Smart playback functions, such as bookmarks and filters, also make it easier and quicker to find the recording you are looking for.

Automatically convert your recordings to text, up to three times faster than typing

Put an end to tedious typing and create text documents directly from recorded audio files. Using the Sembly Speech-to-Text Software is at least three times quicker than typing up the document yourself. Simply record your notes, interviews or meetings, upload them to Sembly, and receive a written document almost instantly.

Automatic meeting minutes with multi-speaker transcription for easy following up

If you want to record meetings, Sembly Speech-to-Text Software creates automatic meeting minutes, so you can focus on your conversation and not get distracted by having to take notes. Thanks to multi-speaker identification you can clearly identify who said what.

Easily share your voice or meeting recordings with colleagues, family or classmates

Sembly allows to save transcriptions on your computer in PDF or markdown format. You can easily share your voice recordings and transcripts with colleagues, family or classmates by simply sending them a link. For increased privacy, you can add a password to your link.
