The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Two chargers in one

Charge two devices at once with the dual port on this space-saving car charger. Both you and a friend can experience fast charging while on the road, or you can power up your wearables while keeping your phone at 100%.

Share your power with just about anyone

No worries about compatiblilty. This charger supports PD, QC, and AFC charging protocols, so you can charge your phone, a friend's phone, tablets, laptops, wearables, game consoles, and so much more.
