R6,387

OPTIMIZED AIRFLOW DESIGN

The AORUS C500 GLASS comes with the large mesh front and the vented top panel, delivering generous airflow with premium aesthetics.

MAX COOLING POTENTIAL

The large interior offers extra space that allows users to add 3 more 120mm fans on top of the space that houses the triple 120mm fans in both the front and roof position along with a radiator.

MAX COMPATIBILITY

The AORUS C500 GLASS is compatible with every single AORUS component and has room to hold up to E-ATX motherboards and radiators up to 420mm, providing users with the upmost flexibility.

CABLE MANAGEMENT

LIKE A PRO

A series of grooves and cutouts are located behind the board and along the case edges for smart and tidy cable management, which can shorten your building time.

EASY TO INSTALL.

EASY TO USE.

EASY-ACCESS SWING DOOR FRONT PANEL

The swing door design allows easy front access without having to remove the entire panel, which avoids the risk of detaching any cables by accident.

TEMPERED GLASS PANEL WITH ANTI-DROPPING DESIGN

The 4mm tempered glass side panel is thoughtfully designed to be removed by tilting out the top first to prevent accidental drops. The non-drilled design further improves the glass panel's strength and safety.

VERSATILE FRONT I/O.

REAL 11 CORE CABLE.

The 2 USB 3.0 ports use the 11-core USB cables to ensure stable signal integrity. The front I/O also offers versatile connectivity, including a USB 3.1 Gen-2 Type-C port and an audio port.

RGB FUSION 2.0

With 16.7M customizable color options and numerous lighting effects, you can choose lighting effects or synchronize with other AORUS devices.

ARGB & PWM CONNECTOR HUB

The built-in ARGB and PWM connector hub is equipped with 5x 5V 3-pin and 5x PWM connectors, enabling users to expand their RGB light stripes, create a superb cooling system as well as a fantastic and gorgeous rig.
