

Grundig Sh 10 Cassette Grey

Model: GFI2700

Manufacturer: GRUNDIG

EAN: 4013835432041

Product Code: 498868

R16,266

The Sh 10 is a reasonably priced and extremely reliable cassette dictation device. It can run on either batteries or accumulators. If you connect your device to the Power Supply/Charger Unit 679, the accumulators charge in the battery compartment. This ensures that the dictation device is always ready to go!

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Its warning signals are also useful; they alert you when the device has no cassette, the end of the tape is reached, or battery or accumulator is low.

Stenorette: Available for the foreseeable future

The longevity, playback quality, and proven user-friendliness of the Stenorette dictation devices from Grundig Business Systems have spoken for themselves for decades. We guarantee that we will continue to provide you with suitable Stenorette dictation devices, accessories, and replacement parts for years to come.
