

GIGABYTE GP-AP850GM power supply unit 850 W 20+4 pin ATX ATX Black

Model: GP-AP850GM

Manufacturer: GIGABYTE

EAN: 4719331550912

Product Code: 499284

R2,967

High Quality 100% Japanese Capacitors

All capacitors are high quality Japanese capacitors, to produce the efficient performance and to ensure the longer reliability.

135mm Smart Fan

Fan speed will be adjusted according to the system load. And the fan will stop when the system is idle or under low load (less than 20% load). The 2 ball bearing structure provides longer life time.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

2 ball bearing is the most durable fan construction with a durability of over 50,000 hours. The life of the 2 ball bearing is more than 5 years.

80 Plus Gold Certified

80 Plus Gold certified ensures to deliver 90% efficiency at 50% load. The better power efficiency leads to less power waste, less heat and less fan noise. And with the support of Intel processors, it will save more energy and more money.

Single +12V Rail

Single +12V rail provides the best power output, stability and compatibility for the hardware. It provides the easiest way to install the power cable. And it is the best design for overclocking.

Protection

In order to make sure the entire computer system to operate stably under any conditions, we not only added protection designs such as OCP, OTP, OVP, OPP, UVP and SCP, but also ensured the stable operation of your system through the safety certification of various countries.
