

MSI BE6500 WiFi7 USB Stick - Dongle WLAN 2880 Mbit/s

Model: GUBE65

Manufacturer: MSI

EAN: 4711377253529

Product Code: 499644

R2,996

WiFi 7, faster than ever

The BE6500 WiFi 7 USB adapter utilizes cutting-edge WiFi 7 technology, revolutionizing the way WiFi functions. With MLO (Multi-Link Operation), the adapter can simultaneously establish multiple connections to a router or access point, significantly reducing latency and enhancing reliability. Additionally, 4096-QAM technology increases speeds by up to 20% compared to WiFi 6.

Incredible speed on congestion free band

Unleashing the power of the 6 GHz band, the BE6500 WiFi 7 adapter delivers blazing-fast speeds of up to 2880 Mbps on 6 GHz, ensuring congestion-free highspeed streaming of real-time conferencing, cloud-based workloads, or gaming activity.

FLEXIBLE POSITIONING AS YOU NEED

The BE6500 WiFi 7 USB adapter is equipped with a high-gain antenna, a flexible cradle, and beamforming technology, boosting WiFi signal strength and ensuring better reception and connectivity even at greater distances from the router.

Better protection

The latest encryption WPA3 enhance the security strength, protect your device and privacy from attacks.

Plug and play

The BE6500 WiFi 7 USB adapter includes a built-in driver, providing a quick and effortless WiFi 7 upgrade for your desktop PC or laptop. Just plug it in and complete the installation with a few simple clicks.
