JVC ”nearphones" - Open-ear truly wireless earbuds with featherlight comfort that makes you forget you're wearing them, coupled with highly rich sound, long battery life, and multi-point connectivity

Enjoy every sound - true wireless earbuds that allow you to hear your surroundings

Featherlight comfort and forgettable fit

So extremely small and light that you will forget you are even wearing them, while the hooks ensure a secure fit even when active.

Compact charging case that easily slips into your pockets

With a slim profile of just 23.5mm and a 48.2% reduction in volume compared to the previous model, this charging case offers exceptional portability. Paired with the Earbuds, you’ll enjoy up to 38 hours battery life.

High sound performance with newly developed, high-quality 16mm drivers

Now you get deeper bass and increased sound performance to enjoy music even in the hustle and bustle of an urban environment. Three sound modes (NORMAL/HIGH/BASS) allow you to choose the sound that fits your surroundings and taste.

Up to 38 hours of extended playback time

With up to 9.5 hours of playback on earphones and a total of 38 hours with the charging case, you can stay active without needing an outlet for a long time. Due to its lightweight comfort and lack of battery concerns, you may end up wearing it all day without even noticing.

Multipoint connection helps keep you within reach of calls

Answer calls promptly, even during online meetings on your PC or when gaming on your console

Clear and stress-free communication

Say goodbye to unclear calls and meetings. The built-in dual microphones and noise reduction helps ensure easier communication even in the midst of a busy city, with one tap mute for added convenience.
