All units work together to form one unified network. Your mobile device will automatically connect to the fastest unit when you move through your home, creating a truly seamless WiFi experience.

2-in-1 Router and Access Point Modes

Flexible and multifunctional, HC220-G5 includes a variety of features to serve as a router or access point. Choose the mode for actual network demands and experience maximum wireless flexibility.

Robust Network Protection

WPA3 Security
Higher password safety and enhanced protection against brute-force attacks

Multi-SSID
Create guest networks for visitors and keep your main network secure

Parental Controls
Block inappropriate content and restrict time spent online

Easy to Set Up and Use

You can set up your device in minutes, whether you prefer the intuitive Aginet app or the powerful web interface. The Aginet app allows you to manage network settings from your smart phone or tablet.

Support TR-069 Remote Management

ISPs can remotely configure and manage the devices via ACS (Auto-Configuration Server). High-level operations are also supported thanks to compatibility with TR-181, TR-111, and TR-143 protocols.

Aginet Solution:

End-to-End Management System for ISPs

Aginet Solutions offer ISPs powerful and flexible platforms to manage multiple devices for connected home, such as dynamic service provisioning, zero-touch firmware upgrading and remote troubleshooting and mesh WiFi diagnostics.
