ensuring that you can wirelessly fast charge your iPhone (up to 15W with Qi2) and your Apple Watch simultaneously. The sleek, modern design not only enhances your space but also makes it incredibly portable, allowing you to take it wherever you go. With its strong magnetic alignment, you can effortlessly secure your devices in place, ensuring they charge efficiently and safely. Whether you’re relaxing at home, working at your desk, or traveling, the HyperJuice charging stand guarantees that your devices are always ready for action, providing the ultimate convenience for your busy lifestyle.

Wireless Qi2 iPhone Charging up to 15W

No more waiting around for your devices to charge. Wirelessly charge 2X faster with the power of Qi2, the latest in wireless charging technology, delivering up to 15W of charging power to fast charge Qi2-enabled devices. Providing optimal energy usage and safeguarding your device's battery life, ensuring you stay powered up and ready for anything.

Charge Two Devices Simultaneously

Say goodbye to cluttered cables and multiple chargers. Stay powered up without the hassle by wirelessly charging both your iPhone (up to 15W) and Apple Watch (up to 5W) at the same time - perfect for users with multiple Apple devices.

Made For Apple Watch

Featuring a dedicated 5W charging pad, specifically engineered for Apple Watch, this charging stand ensures optimal charging performance and security for your smartwatch. Whether you're tracking your fitness goals or keeping up with notifications, your Apple Watch will always be ready to go.

Travel-friendly and Compact Design

Compact, sleek, and lightweight, this charging stand is your perfect travel companion. Whether you're at home, in the office, or on-the-go, its portable design fits effortlessly into your daily routine while also ensuring convenience and functionality on the move.

Built-in Kickstand

Boost your productivity and streamline your workspace with the built-in kickstand. Prop up your iPhone for easy viewing, hands-free use while it charges, or to use StandBy Mode, allowing you to stay connected without interrupting the charging process.

Widely Compatible with Qi Devices

The HyperJuice Qi2 2-in-1 Magnetic Charging Stand isn't just for Apple users. It works with all Qi-compatible devices, including Android smartphones and AirPods, making it a versatile addition to any tech setup.

Keep Your AirPods Charged, Too

No need for separate chargers. This stand also supports AirPods charging, so you can keep all your essential devices charged and ready to go in one convenient location.
