

ICY BOX IB-127CL-U3 USB 3.2 Gen 1 (3.1 Gen 1) Type-B Black

Model: IB-127CL-U3

Manufacturer: ICY BOX

EAN: 4250078171591

Product Code: 500872

R2,196

Cloning bootable hard disks

Hard drives are simply plugged into the docking and clone station. Just one touch on the clone button, which is easily accessible on the device, and the cloning process starts without the need for a USB 3.0 connection to the computer. The hard disk is now cloned 1:1, bit by bit.

All easy

With the help of HotSwap and Plug & Play, hard disks of the form factors 2.5" (max. height up to 15 mm) and 3.5" can be easily inserted, exchanged and put into operation. When the docking and clone station is connected to the PC, both hard disks are recognised independently of each other.

RGB ambience

The bottom of the clone station lights up during operation and provides an atmospheric highlight while working. The aluminium housing in matt black provides a stylish contrast of the highest quality. The LED display for the cloning progress is embedded on the top of the device. Simple and exciting.
