

ICY BOX IB-3740-C31 HDD/SSD enclosure Black 2.5/3.5"

Model: IB-3740-C31

Manufacturer: ICY BOX

EAN: 4250078167044

Product Code: 500908

R5,526

It's the mix

Apart from the improved design, the advantage of the IB-3740-C31 is that it can support 2.5" and 3.5" drives. This makes the device an ideal candidate for users looking for the maximum amount of direct-attached storage space since traditional spinning disks can accommodate a significantly larger amount of data than the largest solid-state drives. If you're looking to eke out maximum performance, however, you'll want to use 2.5" SSDs instead.

For the environment

When the host device is not being used or if the data transfer cable is not connected the IB-3740-C31 turns itself into standby mode automatically. In addition, each drive bay has an LED indicator in order to provide information regarding HDD activity (read/write), fan settings, and sync status.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Fast data transfer

The connection between the host PC and the external enclosure is realized by a USB 3.1 Type-C™ port. Thanks to the USB 3.1 (Gen 2) protocol a high data transfer rate of up to 10 Gbit/s can be achieved.
