Installing the IB-AC553 is simple and straightforward, thanks to its Type-E connector designed for modern motherboards. The hub fits neatly into the back panel, plugging directly into an available Type-E slot. With Plug & Play functionality, it eliminates installation complexity, allowing users to immediately expand their connectivity.

Durable build

Built with a sturdy metal housing and a fully shielded 60 cm cable, the IB-AC553 provides dependable performance for long-term use. Its robust design resists wear and tear, providing stable and interference-free connections for demanding environments, making it a trusted addition to your PC setup.
