# R1,988

### Seven times powerful

When all the USB 3.0 ports on the PC are already used and the need arises to connect an additional device urgently, this candidate could be perfect assistance. One USB 3.0 port on the PC must be made free, but for that, seven ports are at your disposal in greater ease of use as before on the PC.

### They are not all the same

One USB 3.0 port is a bit different than the others. Number 7 is the so-called "Charging port", with it, charging a mobile device or a rechargeable battery with 5V / 2.4A is made fast and efficient since the normal USB 3.0 ports provide only 0.9 Amper.

### A robust companion

The IB-AC618 does not tremble so fast. The high-quality aluminum dissipates the inner heat to the
