

ICY BOX IB-CR200-C card reader USB 2.0 Black

Model: IB-CR200-C

Manufacturer: ICY BOX

EAN: 4250078164029

Product Code: 500958

R1,062

A practical computer accessory

The ICY BOX IB-CR200-C card reader is a great tool for transferring photos and other files between memory cards, smartphones, tablets, cameras and your computer. Since digital devices like cameras, camcorders, smartphones and others record audio and video onto different storage media, it helps to have a versatile reading device ready at hand. Save yourself the hassle of using different card readers for transferring files between different computers and devices by using the ICY BOX IB-CR200-C card reader.

The new standard

USB 3.0 Type-C™ ports have two distinct advantages over the existing forms. They are smaller and therefore ideal for thin laptops and mobile devices and it is no longer necessary to insert the connector in a particular orientation. It always fits and thus saves the user a lot of small annoyances when connecting devices.

Small all-rounder

The IB-CR 200-C is the optimal card reader on the go. It allows the transfer of your data to the usual SD and microSD card formats up to 128 GB.

The plug in the plug

The well-known USB Type-A connector accommodates an additional USB micro B connector. A future-proof helper, which is also connected to current and already slightly older devices.
