R1,910

Easy connection - multiple benefits

Perfectly combines a high-quality appearance and efficient technology with a very compact size. The premium aluminum DockingStation does not only look good but also offers high comfort while using. This solution is suited for any location such as private or office areas.

Small but strong

The Type-C™ connection offers incredible versatility. It combines data transmission, video output and power in a single, compact port. The integration of USB Type-C™ makes the connection even more practical, as it has a twist-proof connection as its physical feature - making it a truly universal connection.

Always informed

The IB-DK4040-CPD provides two different video interfaces and enables you to connect an HDMI® and VGA device simultaneously in mirror mode.
