

ICY BOX IB-HUB1417-i3 Black

Model: IB-HUB1417-i3

Manufacturer: ICY BOX

EAN: 4250078168218

Product Code: 500984

R1,248

Refreshment

With the IB-HUB1417-i3, devices become a small control center again. Existing devices such as printers, USB sticks with Type-A and Type-C™ ports, keyboards and SD/MicroSD can now be used again in an uncomplicated manner, without the need to search for a free connection or reorder connected devices.

Some things

we won't miss thanks to Multi-LUN support, each logical drive is a stand-alone device. This allows both SD cards to be accessed and data copied simultaneously. This makes the usual back and forth of SD cards a thing of the past.

Not only useful but handsome

Devices that we use every day should not only work but also appeal to us visually. The IB-HUB1417-i3 with its simple inscription on the black paint of the solid metal housing would particularly like to please us here - and is very successful.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
