Built with sturdy aluminum, the hub effectively manages heat while maintaining a clean, modern look. It’s made to last and keeps your workspace both functional and stylish.

Power Delivery

Includes two USB-C® PD ports delivering up to 22 W each, or up to 45 W when one is used solo. The 100 W upstream port charges notebooks while the LED display helps manage power usage efficiently.

Real-time LED display

The built-in LED shows current power output in watts. It gives you clear, real-time visibility to monitor and adjust power distribution as needed.

Integrated cable with dual connection

An attached cable with a USB-C® to USB-A adapter makes switching between different host devices simple. Whether you’re on a MacBook or a standard PC, it’s ready to connect.

Operating system

Supports both Windows® and macOS®. Whether you're using USB-C® or USB-A, it connects easily without extra drivers.

All-round talent

An 11-port USB hub with two PD ports, real-time wattage display, card readers and an integrated USB-C®/A cable – perfect for power users running Windows® and macOS®.

Multi-connectivity

For content creators, editors, and professionals who manage multiple devices daily. It provides 11 ports, including two USB 3.2 Gen 2 Type-C® and one USB Type-A port, delivering speeds of up to 10 Gbit/s. It also features three USB 3.2 Gen 1 Type-A ports with BC 1.2 fast charging and integrated

SD®/microSD® card readers with up to 104 MB/s for quick file transfers.

Durable aluminum build

Made from robust aluminum, this hub is designed for efficient heat dissipation. The sleek design makes it a reliable and stylish addition to any workspace. This durable construction allows long-term use and keeps temperatures in check during demanding tasks.

Power Delivery

The device is equipped with two dedicated USB Type-C® ports for PD, offering up to 22 watts each. One port can even provide up to 45 watts when used alone. The 100 W PD upstream port powers notebooks and devices, and the real-time LED wattage display helps you track power usage for optimal management.
