Keep cool!

The M.2 heat sink for your PlayStation® 5 ensures even and reliable heat dissipation and thus offers stable and long-lasting performance while gaming. The optimal cooling also protects the SSD from failure or defect.

Perfect for PlayStation® 5

The dimensions of the heat sink are perfectly matched to the PS5. The installation is very simple and can be done in just a few steps. Even though the cooler is designed for use in the PlayStation® 5, it can of course also be installed in any gaming PC.
