Dual platform support

IB-MS622-T combines a monitor arm and notebook tray in one clean solution, helping you to keep your workspace organized. It supports a monitor up to 32 inches and 8 kg, and a notebook up to 17.3 inches and 5 kg. Great for maximizing space on smaller desks.

Ergonomic viewing height

Raising your monitor and notebook to eye level helps improve posture and reduce neck and shoulder strain, especially during long work sessions. By positioning your screens at a comfortable height, the stand helps create a healthier setup that supports better focus and productivity throughout the day.

Notebook tray design

The open-frame tray design improves airflow and prevents your notebook from overheating during heavy use. Non-slip silicone pads guard against scratches, while the adjustable claws hold your notebook firmly in place. IB-MS622-T allows both protection and stability, even for larger or heavier notebooks.
