R4,408

Heavy-duty support for two large monitors

Built to handle demanding setups, the IB-MS702-T supports 2 monitors up to 57 inches and 27 kilograms each. The sturdy construction and spring-assisted arms keep your screens in a secure and stable position and promote a more natural working posture. That makes it ideal for professional use, creative workflows, or immersive multitasking environments.

Effortless height and angle adjustment

The IB-MS702-T features a spring-assisted mechanism that makes adjusting the height and position of your monitors smooth and simple. With flexible joints and independent arm movement, you can

raise, lower, tilt, or swivel each screen without any tools. This is perfect for adapting quickly between tasks or switching from sitting to standing.

Ergonomic viewing position

Spending long hours in front of a screen can take a toll on your posture. The IB-MS702-T helps combat that by lifting your monitors to eye level, promoting a straighter spine and reduced neck strain. Its flexible rotation, tilt, and height options allow you to angle each display independently for optimal viewing. This makes it easier to maintain a comfortable and healthy working position, even during intense multitasking sessions or extended workdays. It’s a simple upgrade that can make a lasting difference in how you feel at the desk.
