

LogiLink ID0204 mouse Office Ambidextrous RF Wireless + Bluetooth 1600 DPI

Model: ID0204

Manufacturer: LOGILINK

EAN: 4052792065725

Product Code: 501223

R958

This LogiLink dual mode mouse allows you to connect wirelessly either via Bluetooth or with the included 2.4 GHz USB receiver. Freely switch between two computers by pressing the mode switch. If you're looking for a simple, straightforward and reliable mouse, the ID0204 in black or the ID0205 in white is the one for you.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
