This Military-Grade, SuperSpeed USB 3.0 secure flash drive is the ultimate data storage solution for high-data security organisations. The Kanguru Defender 3000™ AES 256-bit hardware encrypted USB 3.0 flash drive boasts FIPS 140-2 Level 3 certification, remote management capabilities, waterproof housing, and complies with the Trade Agreements Act (TAA Compliance), making it an outstanding USB drive for the highest security environments, including government, healthcare and financial industries.

Now pending FIPS 140-3 Level 3 Certification, the next level for the highest standard in data security, the Defender 3000 is designed to address the most demanding encryption regulations.

Available capacities:
16GB / 32 GB / 64GB / 128GB / 256GB / 512GB
