

Samsung IW012C MicroLED Indoor

Model: LH012IWCMWS/XU

Manufacturer: SAMSUNG

EAN: 8806095035277

Product Code: 505483

R118,404

The Wall. Make a bold statement.

Make a bold statement with The Wall. Samsung’s rich R&D heritage and LED expertise culminates in The Wall, designed to deliver the ultimate viewing experience. Create immersive experiences and help deliver an accurate view of your business.

An abyss of depth

Black Seal Technology+

Black Seal Technology+ takes you further into the darkness1. A deep black background blankets the screen with impressive uniformity, creating a virtually seamless canvas for black levels with incredible depth for immaculate contrast and detail.

Incredible colour purity

Ultra Chroma Technology

Ultra Chroma Technology expresses a canvas of lifelike colours with astounding clarity and vibrancy. Narrow wavelengths help produce unbelievably pure colours as if you were there in real life.

The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Colours mapped for stunning clarity

20bit Processing

The Wall’s 20bit processing presents colour mapping with impressive accuracy. Deeper bit depth at low greyscale also delivers extraordinary contrast ratio and smooth, natural tonal gradients.

Continuous natural shading

Linear Greyscale

A precise linear greyscale showcases intricacies in scenes, delivering realistic textures, volume and shades. The smooth continuity helps immerse you in the content on screen.

AI optimisation

MICRO AI Processor2

Content is analysed and optimised for breathtaking picture quality. The powerful AI processor helps deliver sharp visuals in sizes up to 8K resolution, with striking contrast and minimal noise.

Dazzling dynamic range

MICRO HDR

Reimagine the limits of LED technology with advanced picture refinement- HDR10/10+ and LED HDR- to illuminate ideal peak brightness and contrast in scenes for precise, stunning imagery.

Smooth, virtually seamless motion

MICRO Motion3

The Wall automatically converts 60Hz signals to 120Hz, helping remove motion judder in fast-paced action scenes for smooth streams and a virtually seamless viewing experience.

Installation reimagined

Factory Seam Adjustment

Installation is transformed by eliminating module-by-module seam adjustment. Now installers can adjust by cabinet, helping save time while improving mechanical quality for immersive viewing.

Certified protection, maximum comfort

TÜV Rheinland Eye Comfort and EMC Class B Certification

Keep eyes comfortable and safe with TÜV Rheinland Eye Comfort Certification4, which minimises harmful blue light, while EMC Class B certification minimises electromagnetic waves for advanced

protection.

Powerful playback with just one box

Simple 8K Playback

The Wall enables 8K content playback with just one S-Box5, as well as 16K content playback horizontally with the new and improved S-Box performance, delivering more pixels with enhanced precision.

Simultaneous source experience

Multi View

With Multi View, The Wall enables simultaneous multi-source playback from up to four sources, all on one screen, without additional splitters required for dynamic content display.
