viewing experience, featuring a Dual Quad HD resolution of 5120 x 1440 that brings every detail to life with vivid clarity.

Experience seamless gameplay with AMD FreeSync technology and a high refresh rate of 165 Hz, ensuring every motion is smooth and free from tearing. The rapid 0.8 ms response time keeps you ahead in fast-paced games, making every second count.

Not just for gaming, this monitor is built for comfort and convenience, offering adjustable height and tilt, along with eye-care technologies like Flicker-Free and Blue Light Reducer Function. The built-in USB-C docking station, USB 3.2 Gen 1 hub, and KVM switch transform it into a central hub for all your devices, supporting power delivery up to 90 W. With HDR400 capability and built-in stereo speakers, it delivers superior audio-visual features for an immersive experience in gaming, content creation, and entertainment.
