Model: NCS-1305

Manufacturer: GENESIS

EAN: 5901969412789

Product Code: 511447

R1,349

CLASSICS WITH CHARACTER

Numerous gamers appreciate the classic design with a little bit of gaming dynamics expressed in the finishing as well as and peripherals' accents. Genesis Helium 200 is a classic cuboid with a stylish carbon texture, steel accents and a red colour scheme characteristic for Genesis. Thanks to this, we receive elegant and versatile equipment that will perfectly match every gamer's room.

MAKE YOUR VICTORIES LOUD

Each of Helium 200 speakers is a wooden structure equipped with a 3-inch subwoofer and an active tweeter, guaranteeing great quality not only of medium tones, but above all of bass sounds. The sound characteristics obtained will work both during an exciting gameplay and while listening to your favourite music. The power generated by the speakers amounts to decent 20 W.

COMFORT OF USE

The volume and the on/off switch are controlled with a potentiometer which is comfortable to use.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
