OPTIMAL SLIP

Be a step ahead of everyone and overcome any limitations! The pad is made of durable material, and its top speed layer ensures high precision in transferring motion to the screen. The Carbon 500 offers perfect control, optimal glide, and untamed performance within your reach.

CARBON TAILORED

Genesis Carbon 500 is your best ally in the toughest battles on the virtual battlefield. The pad is equipped with a special stitching, and the dense weave will ensure that the pad will retain its properties and aesthetics for a very long time.

NON-SLIP BOTTOM

Gain some control and stability during the most intense firefight! The pad has been equipped with a special rubber, non-slip base that guarantees permanent hold in place, thanks to this your grip on the mouse during is always firm even during the most dynamic movements.

FREEDOM

Carbon delivers amazing efficiency and performance. The mousepad allows precise cursor tracking, whether you're using an optical, laser, or hybrid mouse. Moreover, it provides reliable performance with all sensor types and sensitivity levels.

PERFECT DESIGN

The Carbon 500 Ultra Wave impresses with its unique Carbon pattern graphics that emphasize the gaming style of the pad. The design refers to the texture of the Genesis desks from the Holm series.
