R1,672

DESIGNED WITH A MIND FOR EVERY DETAIL YOU

Details matter, but only when they offer a tangible benefit in the game. When designing the GENESIS Thor 230 TKL, we made sure that the implemented solutions carry real value. The GENESIS Thor 230 TKL Wireless was no different. Its full wireless capability is a nod to the most demanding gamers looking for the functionality of an entry-level model and wired performance, but without the cable.

RAPIDSPEED™ WIRELESS - A NEW LEVEL OF WIRELESS GAMING

Wired performance, wireless convenience. Meet RapidSpeed™ Wireless, a connectivity technology designed for the most demanding gamers. Lightning-fast data transfer, 0 interference and wired precision. That's what you can count on with RapidSpeed™ Wireless, and that's not all. BT technology will allow you to connect the keyboard with as many as 4 devices simultaneously. You can switch between them effortlessly with the right key combination. With the GENESIS Thor 230 TKL Wireless, you no longer have to worry about not having enough USB ports.

EVEN MORE GAMEPLAY

Are you worried about constantly recharging your device? Don't be. The GENESIS Thor 230 TKL Wireless model is equipped with a 3000 mAh battery, providing dozens of hours of fun. The charge level? You will display it on the keyboard by pressing the appropriate keyboard shortcut. What's more, you can easily recharge the device without interrupting gameplay with the Play & Charge function.

SILENCE YOU WILL APPRECIATE

Loud keyboard operation is a problem that many gamers face. We know how significant it can be not only for you, but also for your household members. That's why we equipped the GENESIS Thor 230 TKL Wireless with additional foam placed between the PCB and the keyboard board. It absorbs vibrations caused by hard key strokes, lowering the keyboard volume by 20%, and it doesn't stop there. The spacebar key also gained additional muting. Our noise dampening system is a guarantee of peaceful gameplay even during fierce duels.

PLAY BY YOUR RULES

GENESIS Thor 230 TKL Wireless is equipped with different types of switches. Each of them is distinguished by high precision, activation regardless of where the key is pressed and high dynamics. However, we know that as a gamer you may have your own preferences. That's why in the GENESIS Thor 230 TKL Wireless we have implemented hot - swap - a technique that will allow

you to replace any 3-pin mechanism with a micro-switch from companies such as Outemu, Akko, KTT. Simply pull out the installed mechanism and plug in the new one. Thanks to the Hot Swap system, you also don't have to buy a new keyboard when one switch fails. You can replace it in just a few seconds.

EVEN MORE READABLY

Readable. That's exactly what the keycaps on the GENESIS Thor 230 TKL Wireless are. When designing them, we focused not only on their workmanship, durability and pleasant-to-touch material, but also on the legibility of the laser-cut additional characters. From now on, they are even clearer, allowing you to work more comfortably with the full, customizable Prismo Effect™ backlighting with 16 million colors and 25 modes.

SOLUTIONS THAT MATTER

Coincidence? Nothing is accidental in the GENESIS Thor 230 TKL Wireless. In addition to the aforementioned amenities, this model will offer you a number of solutions that will make your gameplay even more enjoyable. A dedicated channel for laying the braided cable in any of the 3 directions, double folding legs for easy tilt adjustment in 2 levels, a function that allows you to activate the function keys without using "FN" - and this is just a small part.

NOT JUST A COMPUTER

Looking for a console-compatible mechanical keyboard? GENESIS Thor 230 TKL Wireless will connect not only to your computer, but also to consoles PS5, PS4, Xbox Series X | S, Xbox One X | S. Easier operation and better chances in competition with opponents? With the GENESIS Thor 230 TKL, it's easy. *Make sure your game supports keyboard controls.
