

Axagon ADE-TR SuperSpeed USB gigabit ethernet adapter

Model: ADE-TR

Manufacturer: AXAGON

EAN: 8595247905567

Product Code: 514818

R838

The external network card AXAGON ADE-TR easily converts USB 3.2 Gen 1 (USB 3.0) port to Gigabit Ethernet port.

It is compatible with 10/100/1000 Mbit/s transfer speeds. The Gigabit network adapter expands the computer with a fast and stable network connection, adds the missing RJ-45 network connector, adds another network card, or replaces the original non-functional network connection.

The network card with Gigabit bandwidth offers a wide range of features, such as IPv4/IPv6 checksum to reduce CPU load by checksums, the crossover detection and auto-correction, TCP large send offload, support for various modes of the Wake-on-LAN feature, the work with virtual LAN (VLAN) and advanced Power Management features.

The metal adapter cover is made of aluminum and provides perfect mechanical protection and excellent heat dissipation. Thanks to its compact dimensions and minimal weight, it is an ideal

accessory for laptops. The support for current versions of Windows, Mac OS X, and Linux operating systems allows it to be used for any desktop, laptop or ultrabook.

In modern operating systems from Windows 8.1 above, the adapter allows easy automatic installation without the need for an Internet connection. Also some phones and tablets with the Android operating system, such as the Sam-sung S9 +, can be connected to the Internet with a network Ethernet cable with suitable adapter* thanks to this adapter.
