

Gorenje WM1400SB 9 waffle(s) 1400 W Black

Model: WM1400SB

Manufacturer: GORENJE

EAN: 3838782824852

Product Code: 514843

R1,417

Adjust temperature

Separately for each plate

Adjust the temperature individual for each waffle batch. Power and ready light indicators will show you when the waffle maker is ready to use. The 5 browning settings allow each waffle to be crisped according to preference. Cooking time depends on set level, but it is usually within 5 minutes.

Easy to use and clean

All plates are made of solid aluminium alloy and treated with non-stick coating. The plates are scratch resistant and easy to clean. After the plates cool down just give them a swipe with a cotton cloth.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
