

Ecovacs DWP020022 vacuum accessory/supply Mop pad Robot vacuum

Model: DWP020022

Manufacturer: ECOVACS

EAN: 6970135034895

Product Code: 515007

R1,269

Washable mopping pads for OZMO Turbo mopping systems of T50 & T50 MAX Family, T30C Pro, 2 sets/box.

KSP 1: In use with OZMO Turbo 2.0 Rotating Mopping System, it can effectively remove stubborn stains and cover the edges and corners.

KSP 2: The floor is clean and free of residue thanks to its three-layer structural design, which efficiently traps dust and locks water:

1) Surface cleaning layer: The high-density loop pile is closely attached to the ground, effectively removing and collecting dirt.

2) Water-locking layer in the middle: The dedicated water-locking high-elastic sponge can lock water for a long time and allow for even water penetration.

3) Bottom adhesion layer: Strongly adherent mop bracket prevents displacement and sliding.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

KSP 3: Environmentally friendly and durable: The mop can be automatically washed and reused.
