

Ecovacs DDB030041 vacuum accessory/supply Dust bag Robot vacuum

Model: DDB030041

Manufacturer: ECOVACS

EAN: 6970135035168

Product Code: 515008

R1,032

DEEBOT X8 / T50 / T50 Max Family, T30C Pro - 3x Antibacterial Dust Bags - Antibacterial non-woven fabric.

Composite non-woven fabric material can prevent large dust particles from entering the motor room and damaging the high-speed motor. The new plastic sliding dust bag mouth sealing design, the dust bag is automatically sealed when it is removed, and there is no need to touch the dust during the whole process, effectively preventing dust from escaping.

Antibacterial agents are added to the surface layer of the non-woven fabric and the inner layer of the meltblown fabric, which can easily filter large dust particles and inhibit the growth of bacteria and mold such as Escherichia coli, Staphylococcus aureus, and mold; The inner layer of the meltblown fabric adds an activated carbon layer to effectively absorb odors.
