Enhanced overhead sound: Up-firing drivers elevate the experience, delivering expansive and lifelike audio. Enhance your cinematic experience with effortless wireless connectivity.

5.1.2 Surround Sound

Discover expansive, immersive audio with this 5.1.2 soundbar.

Five front channels: Left, right, centre, and two side-firing channels deliver wider, more enveloping sound.

Dedicated subwoofer: Feel deep, powerful bass that brings movies, shows, and games to life.

Two height channels: Overhead sound adds a new level of immersion for a cinematic experience.

An immersive surround sound solution for truly room-filling audio.

Multiple placement options

Sharp “Q” soundbars have multiple placement options. Use either low or riser feet options, or wall mount under your wall mounted TV.

Wireless connection

The wireless subwoofer delivers a cinema-style experience, without the hassle of wires.

Bluetooth 5.3

Simple, fast and flexible: use Bluetooth to wirelessly stream audio from other devices such as your smartphone or tablet.

DTS Virtual:X

DTS Virtual:X® technology brings immersive audio to life, enhancing today’s dynamic home entertainment experiences.

Tuned by Devialet

Experience exceptional audio performance fine-tuned by Devialet, the French expert renowned for acoustic innovation.

4K pass-through

The HDMI inputs allow 4K signals from devices like 4K Blu-ray disc players to send their full visual clarity and depth.

EQ presets

Equaliser presets adjust the sound profile to better suit the genre of content you are viewing. Choose from: Movie, Music, Voice, Sport, Game, Night, Custom and Off. Adjusting the bass and treble allows you to create your own customised EQ preset.

Connections

1x eARC, 2x HDMI inputs with 4K pass-through, Bluetooth 5.3, Digital Optical In, USB media and 3.5mm Aux

Suitable for TVs 49" and above.

For an audio experience that complements your viewing, choose a soundbar sized to fit your TV and space—offering a balanced design that integrates seamlessly into your setup while delivering impressive performance

USB Playback

Sharp "Q" soundbars play the following formats: MP3/OGG/WAV/FLAC/AAC/M4A. Drives up to 64GB are supported.

HDMI eARC

The "e" in eARC stands for "enhanced." eARC HDMI sockets offer greater bandwidth and speed than standard ARC, enabling audio formats like Dolby Atmos to be delivered at their full quality when paired with compatible cables.
