Fry this at home.

Why not make your own potato crisps? Or make crisps out of fresh vegetables instead of potatoes? Simply place thinly sliced potatoes or other vegetables on the Air Fry and Grill tray, add a little oil, select the Air Fry Function, and soon you'll be comfortably snacking in front of the TV. And here's another tip: You can also use the Air Fry and Grill tray to prepare grilled dishes.

Automatic cooking made easy.

With AutoPilot 10 you can cook your meal to perfection. After placing the dish in the product, set - out of 10 - the appropriate automatic program in the display menu. Just add the weight of the dish and press "Start". AutoPilot then takes over and determines the cooking mode, temperature and cooking duration. It even switches off the program towards the end of the cooking time. As some dishes with the AutoPilot require the use of ovenware with a lid, the interior walls also stay clean. Cooking couldn't be simpler.

Easy to control

LED Touch Control in Bosch ovens gives a better overview of all oven functions, which are presented in the easy-to-use display. Heating mode, temperature, duration and all additional functions are set via touch buttons. Thus, knobs belong to the past – all easy to clean.

Evenly baked results - on up to three levels.

This function distributes heat quickly and evenly throughout the oven, making it possible to cook on up to three levels simultaneously. Sweet and savoury dishes can be cooked at the same time without mixing flavours.
